

Reward and safeguard your company management. Well-being in the management means well-being for all personnel.

A comprehensive medical expenses insurance is a desirable benefit for personnel and a good investment for companies. The insurance helps companies to maintain working capacity and to manage personnel expenses. The insurance is also an advantage when new employees are hired and engaged.

What is working capacity insurance Loisto?

Loisto offers your company management the best possible cover in case of illness or accident.

With Loisto, the insured can seek treatment at any LocalTapiola partner clinic.

Benefits to employers and employees

Timely, high-quality care can reduce employee absence times due to illness and accidents that occur during leisure time.

The claims process is easy. The insured receives an insurance card. When the card is presented at LocalTapiola's cooperating clinic, the clinic will send the invoice directly to LocalTapiola. There is no need for the employee to spend their own money.

Insurance cover

The insurance may include medical treatment expenses cover, as well as one or all of the following options as optional additional cover: Pharmaceutical expenses, Physiotherapy, or Therapy cover.

Medical treatment expenses cover provides compensation for the following:

- Specialist physicians' fees and the costs of examinations ordered by specialist physicians
- Surgical expenses
- Daily hospital charges
- The costs of physiotherapy following surgery or casting
- Outpatient clinic charges levied by public hospitals and health centre visit charges

Pharmaceutical expenses cover provides compensation for the cost of medical preparations required in the event of illnesses and accidents.

Physiotherapy cover provides compensation for physiotherapy expenses arising from the treatments for illnesses and accidents.

Therapy cover provides compensation for therapy expenses arising from the following:

- Psychotherapy
- Neuropsychological rehabilitation
- Occupational therapy and speech therapy

Exclusions

The insurance does not cover health-related check-ups, vision tests, preventive health care, dental treatment, treatment or pharmaceuticals primarily intended to improve quality of life, cosmetic procedures or complications arising from such procedures. The exclusions for each type of cover are described in detail in the terms and conditions of insurance.

Maximum compensation and deductible

Each type of cover has its individual maximum compensation stated in the insurance policy document and determined by the index to which the insurance is tied. The policyholder can select the deductible.

Where and when is the insurance valid?

The insurance is valid worldwide at work and in leisure time. However, only expenses for treatment ordered and given in Finland are compensated as medical treatment expenses.

What are the preconditions for the insurance?

Loisto is aimed at managerial personnel. The insurance will be granted and will remain in force on the provision that the company has a general practitioner occupational health care contract.

The insured employee must be entitled to general practitioner medical services on the basis of an occupational health care contract, as well as have a valid Kela health insurance card and a permanent place of residence in Finland. Granting of insurance does not require health declaration.

How is the insurance premium determined?

The insurance premium is determined based on the policyholder's business as well as the age and sex of the insured. The age of the insured affects the premiums every year. The premium is also dependent on the index to which the insurance is tied.

Information on taxation

Premiums are usually tax-deductible for the company.

The insurance is a benefit subject to tax. Claims paid on the basis of the insurance are not taxable income. For further information on tax, visit vero.fi and read the following instructions: Työnantajan ottaman sairauskuluvakuutuksen verotus 15.1.2024, VH/7085/00.01.00/2023.

LocalTapiola is not liable for the taxation of the policyholder or the insured or for amendments made in tax regulations or legal or authority practice.
