

**The Cyber Security Service is a comprehensive solution for companies, which enhances your company's preparedness to prevent data breaches and the risks arising from them.**

**This insurance gives your business coverage against costs arising from data breaches – it pays out compensation for costs of an IT expert needed in the event of a claim, for interruption of business, for the policyholder's liability for damages to third parties, and more.**

### **Cyber Service helping you 24/7**

The Cyber Service helps your business in case of cyber damage. The telephone service is there to help you, if your data systems suffer damage.

Most malware can be removed in one call, and you can also file a loss report to LocalTapiola during the same call.

### **Call to report a loss 24/7**
